

Walk this Way Rubric

Science 10

Name: _____

	Fully Meeting Expectations	Meeting Expectations	Barely Meeting Expectations	Not yet meeting expectations	No evidence to assess
Graph Scale	Scale is appropriate, graph paper is well utilized, axes are labelled properly	Scale is appropriate, axes are labelled properly	Scale is appropriate, some errors in labelling	Scale is not appropriate	No scale included
Plotting Points	No errors, graph is neat and organized	No errors	No errors	Minor errors	No points plotted
Drawing Line of Best Fit	All lines are straight and a best fit for the data	Most of the lines are straight and a best fit for the data	Some of the lines are not a best fit for the data	Best fit lines have not been drawn properly	No best fit lines drawn
Finding Coordinates on Line of Best Fit	All coordinates are clearly labeled and are points on the best fit lines.	Most of the best fit lines are labeled or on the line	Some of the points are not on the line or have not been labelled	Points on the best fit lines have not been used	Coordinates on the best fit lines have not been used
Calculation of Slope	All work is shown, formula is shown and units have been included	Work is shown and units have been included. There may be some errors	Calculation is correct, but work may be missing or units not shown. There may be some errors	Units may be missing, work may be incorrect.	No work shown.
