

Science 10
Invasive Species Assignment

Name: _____

You will be researching 2 invasive species in Canada, and then sharing your results with other people next class.

Part A: To be filled in on your own:

- Visit <http://bcinvasives.ca/> and complete the table for BC Invasive Species
- Visit <http://www.invasivespeciescentre.ca/SitePages/default.aspx> and complete the Canada Invasive Species Table. You will need to scroll down to the bottom of the page and see the 4 big buttons (Aquatic Plant, Aquatic, Forest and Plant) to find out the information.

BC Invasive Species	Canada Invasive Species
Name:	Name:
What is it?	What is it?
What does it look like?	What does it look like?
How did it get introduced to BC or where did it come from?	How did it get introduced to BC or where did it come from?
Why is it considered an invasive species?	Why is it considered an invasive species?

Leave this page blank until we share the results of our research in class.
